

Product Manager (m/f/d) with Experience in Life Sciences

Your Responsibilities

- Take ownership of the Protein Purification Product Group, driving its growth and success.
- Conduct competitor analysis and market research to spot trends and understand customer needs, shaping the future of our products.
- Develop product strategies and implement them yourself—you'll create marketing materials, write compelling campaigns, and design trade fair content with your own hands.
- Craft engaging visuals —an eye for design is essential.
- Write your own email and social media campaigns, as well as promotional content for trade shows.
- Work closely with the sales team and cross-functional colleagues to turn ideas into results and keep everyone aligned on goals.

Your Profile

- Scientific background (advanced degree in molecular biology, biotechnology, biomedical engineering, life sciences or similar) paired with an MBA or first experience in marketing alternatively, a degree in economics with a specialization in marketing and relevant working experience in biotech or pharma industries
- Ideally, you have a solid understanding of protein research and purification technologies
- 1+ years of experience in product management, focused on combining scientific expertise with commercial growth strategies
- Experience with CRM tools like HubSpot as well as relevant market analysis tools & databases (e.g. industry research reports, financial data, market trends, and competitive intelligence)
- You are confident in English —both written and spoken. Your German is at least B1 level.
- You enjoy working collaboratively towards a common goal and adding your perspective and skills.
- You're a doer who turns strategies into results and thrives on hands-on execution.
- Familiarity with Adobe Illustrator, Photoshop, or other Adobe Suite tools is a plus, not a must.

Product Manager (m/f/d) with Experience in Life Sciences

What We Offer

- A full-time role (40 hours/week) with flexible working hours
- A young and open-minded team that values independent work, open communication, and short decision-making processes.
- The work is highly diverse, offering the opportunity to explore many new areas and continuously develop your skills.
- Subsidized meals at our canteen, free refreshments, and flat hierarchies.
- The position is initially limited to two years, with the potential to become permanent.

We place great importance on treating each other with fairness, kindness, and respect. Our goal is to create a work environment where everyone feels comfortable, can contribute their own ideas and creativity, and grow as part of a motivated team. We are committed to diversity and inclusion, welcoming individuals of all genders, nationalities, and backgrounds. Together, we look forward to getting to know you and achieving great things together.
