

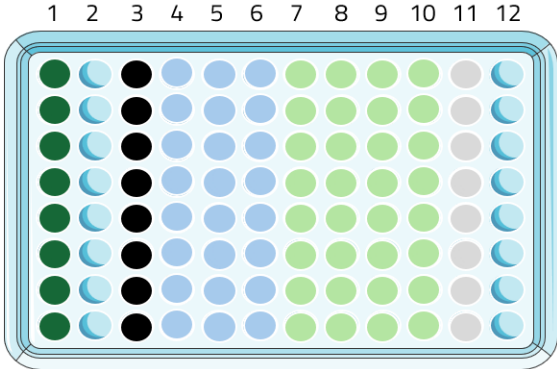

# PlateX MP™ Strep-Tactin®XT MagBeads

96 deep-well plate (INTEGRA)

Cat. No.: 90860

<b>Description</b>	<p><b>PlateX MP™ Strep-Tactin®XT MagBeads is a ready-to-use plate for automated membrane protein solubilization and purification via Strep-tag®II or Twin-Strep-tag®. It enables rapid identification of the most effective synthetic copolymer out of eight variants for subsequent upscaling of membrane protein production. The plate contains all required reagents - copolymers, MagStrep® Strep-Tactin®XT beads and equilibration, wash and elution buffers - in a lyophilized format.</b></p>
